HOW TO START

GETTING STARTED

We've created this booklet with you, the professional photographer, in mind. Inside, you will find succinct information about all of our products and options.

The intention was to give you a beautiful, informative and user-friendly guide where you can find all you need to know about our company and products in one convenient place.

We hope you find it pleasant and useful; we certainly enjoyed creating it for you.

To help you navigate your way through what at times can seem like our endless sea of products have a look below at a few quick tips:

COLLECTIONS COME FROM THE COVER

Our flagship products – Photo Albums and Photo Books – are differentiated into collections of varying style and design. We offer eight different collections in total. Feel free to judge these collection by their cover; after all that's the way we distinguish them.

PHOTO ALBUMS & PHOTO BOOKS; PAGE CHANGERS

Once you have chosen a collection, your next step is the product. If you find yourself confused about the difference between Photo Albums and Photo Books consider this; our Photo Albums have thick, rigid pages whereas our Photo Books have thin, flexible pages.

PHOTO ALBUMS – Due to their flush-mount design our Photo Albums come standard with the paper mounted on card-stock; creating thick, 800 gsm spreads that will stand the test of time.

PHOTO BOOKS – There are a variety of paper options to choose from for our Photo Books (see page 33-37) yet all choices are unmounted in their 'natural' state. Therefore, while having a variety of gsms to pick from all options are thin in comparison to our albums; yet flexible, and resilient.

BINDINGS – Due to the difference in papers and paper thicknesses our albums and photo books have different binding methods with our Photo Albums and DreamBook 4Ks achieving a lay-flat, crease-less finish.

Yet, whether our Photo Album, DreamBook 4K, or Photo Book Pro the cover designs within the collection are near identical.

Satin

LASER ETCH

Your logo / design etched into the top layer of the material by a laser. Due to its abrasive nature this option is not available on all materials

MAKE IT TRULY YOURS

On top of a variety of materials and paper options, we also offer a wide-range of specific, detailed personalisations.

The availability of these options vary depending on the collection and product.

EMBOSSSED TEXT

Available only on selected leatherettes, lettering is imposed in a bookbinding font with the option of plain or coloured foil finish

UV PRINT

Have your logo, or a design, be printed on top of textile or leatherette using UV technology

METAL CORNERS AND SEAMS

Include metal corners on the front and back cover corners of your albums

You can choose from single or double seams in a variety of colours

paulwalker
photography

SQUARE OR ROUNDED CORNERS

Corners come at a point in our albums, as standard. You can choose to have them rounded out

INSIDE COVER COLOUR

Select from three possible inside cover colours: ecru, black or white

WHITE OR BLACK SPACERS

Photo Albums come mounted and include spacers. Choose to have these in standard white, or optional black

PAPER TYPES

We take pride in having the ability to offer a wide variety of paper options throughout our different products; and aim to provide the highest quality papers which only enhance the photos printed on them. Read on for a breakdown of the paper options we provide, their characteristics, as well as a mention of which products they appear in.

PHOTO ALBUMS

Fuji Silk – (pages mounted on rigid boards) standard in albums. Fuji Silk paper is a half-matte, paper with a texture resembling that of a fine honeycomb. This paper is soft to the touch, retains vibrant colours and details while exuding an extremely crisp, elegant finish.

Mix with Fuji Pearl (Metallic) spreads in the same album.

Fuji Pearl (Metallic) – (pages mounted on rigid boards) characterised for its popping details and glossy, pearl-like finish. It's generally accepted that Fuji Pearl (Metallic) offers the widest tonal range which allows to produce images with rich textured quality. Pearl paper enhances the freshness of the image and assures a clearer more distinct outcome.

Mix with Fuji Silk spreads in the same album.

Canon Deep Matte – (pages mounted on rigid boards) features a smooth, glossless, almost velvet to the feel texture. This fine-art paper accentuates vivid shades, contrasting colours and skin tones. The high-quality images produced on the state-of-the-art Dreamlabo 5000 printer, give off a professional, artistic feel.

Mohawk Eggshell – (pages mounted on rigid boards) a soft feel and vintage vibe, as well as muted light but less than the above mentioned Deep Matte option. Mohawk Eggshell paper combines the tactile feel of uncoated paper with the ink density and sharp detail of coated photo paper.

DREAMBOOK 4K

Canon Gloss - (275 gsm) has a heavy, glossy finish. In general, glossy and/or metallic finishes are renowned for their range, sharpness, vividness, and durability. They will be highly colourful and most purely present the colours and shades of the image.

Ideal for the bold, dramatic shoots where the aim is to achieve an authentic, unapologetic "wow!"

Canon Luster - (275 gsm) that middle ground between glossy and satin. It has incredible definition, natural skin tones, etc, but has less of a gloss finish than the glossy option; yet, does still retain some shine which enhances details and colours on the photo.

Lower gloss also means less problems associated with glare and fingerprints.

Canon Satin - (170 gsm) a near-flat; extremely low-gloss finish with minimal glare. The paper is smooth and soft to the touch as well as provides an elegant finish and effect to any image. A slight texture in the paper, more fine than that of the Luster. The satin finish is ideal for images that will be handled often and are exposed to varied viewing environments.

PHOTO BOOK PRO

Felix Schoeller Luster - (190 gsm) a finish that sits between glossy and matte. The resulting images will retain some shine allowing for details and colours to be enhanced. A lustre paper and finish maintains incredible definition and natural skin tones.

Due to its less glossy nature, this paper will have little to no problems with fingerprints and glaring.

Mohawk Eggshell - (148 gsm and 216 gsm) the Eggshell - is a true, vintage style, matte. The paper maintains a soft, 'texture' feel and muted tone; absorbing rather than reflecting light. Mohawk 148 gsm paper is perfect for smaller formats and ideal for full page images. The 216 gsm paper is recommended for larger book formats and is additionally creased towards the spine to ease paging through.

Arctic Matte - (170 gsm), this wood-free paper has a high-tech, cool white base guaranteeing excellent printability. Thanks to this white base colour and opacity it provides stunning results, particularly with contrast - most notably black and whites. It also boasts an enhanced, smooth presentation of your images without glaring issues. The finish results in an artistic, almost vintage, film-like appearance that creates a mood for any style of photography.

BONUS TIP: Order a Demo Paper Bundle to have all our paper types on hand. Perfect to take along to IPS meetings.

WHY US?

HOW TO ORDER

Simply go on to your online gallery, once logged in you need to select a maximum of 100 of your favourite images you would like in your album, simply hover over an image and a little heart will appear in the top left hand corner, click that.

Once this is done you need to save a new favourite list, then drop us an email to let us know you have done this and also let us know which colour you would like. We can login to the system and select your chosen favourites.

We then produce your designs and email you a PDF proof for you to approve. Once approved, your album design goes to the album builders. The whole process takes around 3 weeks from receiving your final approval.
